How to do Your Own Arranging!!

JUST OUT!!! J. W. PEPPER'S PRACTICAL GUIDE AND STUDY TO THE SECRET OF Arranging Band Music, OR THE AMATEUR'S GUIDE.

BY WILLIAM H. DANA,
President of Dana's Musical Institute, Warren, Ohio.

This is a plain, simple work that should be in the hands of every Leader and member of a Brass Band; works of this class are rare, and those that are in the market are confusing on account of their difficult explanations. The fact having constantly presented itself to the author that this work was to be studied by the average Literary Scholar and Musician, great pains have been taken in the use of the terms and expressions. The opening chapters are devoted to that part of harmony necessary in learning to Arrange Band Music, followed by a number of chapters on the Compass, Treble, and Bass, and the Score of each instrument. How to Arrange a Written Composition, either Choral or Instrumental, with Hints on the Distribution of the Instruments; a few Chapters on Melody and Accompaniment, and how to Reduce an Accomplishment so that it can be Arranged for a Brass Band. The publisher flatters himself that he has offered a work to the profession that will prove a guide to all who study it.

Price of the Above Splendid Work (Complete) \$1.00 Net.

J. W. PEPPER, Publisher,

S. E. Corner Ninth and Filbert Streets, Philadelphia, Pa.

NOTICE.—Many of the Profession state that we were very foolish in Publishing Works of this kind, by saying that it would hurt our trade as soon as Band men learned to Arrange. As I have stated before, it is my intention to promote and Elevate Bands and Band Men, and for my part, would just as leave sell them the Book as the Music.

During my past experience in business I have noticed that the rapid advancement of Music in this country, especially of ensemble playing, as Brass Bands and Orchestras, has resulted so favorably that almost every town in the country has now its Orchestra as well as a Brass Band, and that since the publication of the Amateur's Guide for Arranging Band Music, which has been so successful, I have been almost compelled (from the many inquiries from day to day) to publish a work for the benefit of my Orchestral Patrons, which I feel confident will fill their every want in the way of arranging.

The Amateur Orchestra being an established fact, the demand for a text-book, that shall serve as a guide in Arranging Music for Orchestras, has been created, and to comply with the wants of the orchestral writer, this work has been written. There are many writers of Instrumental and Vocal Music who do not venture on Arranging Music for Orchestras, not knowing how far the principles of harmony apply in Arranging Music for Orchestral Instruments. This work tries to make the subject plain, each topic being taken up separately and explained in a simple manner. The compass of each instrument, its use, place in the score and general characteristics are brought out and illustrated. Among the topics are, Arranging Instrumental Music, Arranging a Song, Arranging a Choral or Four-voiced Composition, several pages of Complete Scores on large papers that fold in the Book like Maps, giving the student a plain and clear course, also a complete Method of Conducting an Orchestra in Concert, &c.

Price of the above splendid work (Complete) only \$1.00.

PREFACE.

In Republishing this Splendid Work, Mr. Rollinson, who is a Cornetist and thorough Musician, and knowing just the wants of Cornet Players, has erased some of the Surplus Exercises which have been published in other editions in order to Stretch Out and make 240 or 250 Pages (such as the repetition of nearly the same Exercises, &c.), and has endeavored to give the Student just the matter that Arban has written to make a thorough Musician—(it is not quantity that makes a good Book, it is quality). Those who have purchased other editions can vouch for the truth of this statement, and appreciate this New Edition, which will be sold at half the price of other editions, and warranted to give better satisfaction. This is the only Engraved Edition published in the United States, and is gotten up on Extra Large Plates, Full Music Size, Printed on Fine Tinted Paper, and pronounced by the Press and Public as being the most Legible Print out. In order to give the Young Cornetist a chance to use the World-Renowned Method, we have put the price down nearly to cost.

J. W. PEPPER, Publisher.

Chromatic Scales.		1 2 3 4 5 6 7 8 9 10 11 12

POSITION OF THE MOUTHPIECE ON THE LIPS.

The mouthpiece should be placed in the middle of the lips,—two-thirds on the lower lip, and one-third on the upper lip. At any rate, this is the position which I myself have adopted, and which I believe to be the best. Horn-players generally place the mouthpiece two-thirds on the upper lip, and one-third on the lower, which is precisely the reverse of what I have just recommended for the cornet. But it must not be forgotten that great difference exists in the formation of this instrument, as well as in the method of holding it; and that which may admirably suit the horn, is attended with very bad results when applied to the cornet. What, after all, is the great desideratum, as regards the position of the cornet? Why, that it should be perfectly horizontal. Well then, if the mouthpiece were placed as though the performer were playing the horn, the instrument would have a falling position, resembling that of the clarinet.

The mouthpiece once placed, it must not be moved either to ascend or descend; it would be impossible to execute certain passages, if the performer were compelled to change the position of the mouthpiece whenever he wished to take, in rapid succession, a low note after a high one.

In order to emit the higher notes, it is necessary to press the instrument against the lips so as to produce an amount of tension proportionate to the exigencies of the note to be produced; the lips being thus stretched, the vibrations are shorter, and the sounds are consequently of a higher nature.

In descending, it is, on the contrary, necessary to apply the mouthpiece more lightly, in order to allow a larger opening for the passage of air. The vibrations then become slower, owing to the relaxation of the muscles and grave sounds are thus obtained in proportion to the extent to which the lips are opened.

The lips must never be protruded. On the contrary, the corners of the mouth must be drawn down; by this means a more open sound is produced. The performer should cease to play the moment the lips begin to feel weak and fatigued, as it might lead to an affection of the lip.

METHOD OF STRIKING OR COMMENCING THE TONE.

It should never be lost sight of, that the expression, *COUPE DE LANGUE*, (stroke of the tongue,) is merely a conventional expression; the tongue does NOT strike. On the contrary, it performs a retrograde movement. It simply supplies the place of a valve.

This circumstance should be well borne in mind before placing the mouthpiece on the lips. The tongue ought to be placed firmly against the teeth of the upper jaw, in such a way that the mouth should be hermetically sealed. As the tongue recedes, the column of air which was pressing against it, is precipitated violently into the mouthpiece and causes the sound.

The pronunciation of the syllable, TU, (hard sound of U as in Tuck,) serves to determine the striking of the sound. This syllable may be pronounced with more or less softness, according to the degree of force to be imparted to the note.

METHOD OF TAKING THE BREATH.

The mouthpiece having been placed on the lips, the mouth should partly open at the sides, and the tongue retire, in order to allow the air to penetrate into the lungs. The stomach ought not to swell, but rather, on the contrary to recede in proportion as the chest is dilated.

The breathing ought to be regulated by the length of the passage to be executed. In short phrases, if the breath be too strongly taken, or too often repeated, it produces a suffocation resulting from the weight of the column of air pressing too heavily on the lungs. The student should, therefore, as early as possible learn skillfully to manage his respiration, so as to reach the end of a long phrase without depriving a single note of its full power and firmness.

EXPLANATIONS IN CONNECTION WITH THE FIRST STUDIES.

No.1. Commence or "strike," the sound by pronouncing the syllable TU, and sustain it well; imparting to it at the same time all possible strength and brilliancy.

The cheeks should never, under any circumstances, be puffed out; the lips should make no noise in the mouthpiece, though many performers appear to think otherwise. The sound forms itself; it should be well "struck," by a proper tension of the lips, so that it may be properly in time, and not below its diapason; for in the latter case a disagreeable and untuneful sound would be the result.

OF SYNCOPATED PASSAGES.

Syncopation occurs when the accent falls on the second instead of the first note of the passage. The accented note must be sustained throughout its full value; the commencement of the note being duly marked, but the second half of the duration of the note should never be disjointly uttered.

A passage of this kind should be executed thus  and not 

STUDIES IN DOTTED QUAVERS FOLLOWED BY SEMI-QUAVERS.

In these studies the dotted quaver should be sustained throughout its entire value; care must be taken never to substitute a rest for a dot.

The performer should execute thus  and not as though it were written 

STUDIES CONSISTING OF QUAVERS FOLLOWED BY SEMI-QUAVERS.

In order to impart lightness to these studies, the first quaver should be executed more curtly than its value would seem to indicate. It should be executed like a semi-quaver; a rest being introduced between it and the two semi-quavers which follow it

The passage is written thus  and should be executed thus 

The same remark applies when a quaver, instead of preceding, follows the semi-quavers.

Written thus  should be executed thus

SYNOPSIS.

1. 

2. 

3. 

A musical score for the song 'The Rose Tree'. The score is written for three voices: Soprano (Soprano), Alto (Alto), and Tenor (Tenor). The music is in 4/4 time and features a key signature of one sharp (F#). The melody is simple and catchy, with a repeating chorus. The lyrics are written below the notes, and the score includes a key signature change to one sharp (F#) and a time signature change to 4/4.

5. *Allegro.*

Studies to exercise the tongue upon the value of dotted eighth notes, followed by sixteenths.

STUDIES ON THE SLUR.

13

This portion of my method is undeniably one of the most important. The fingering indicated should be scrupulously followed, however unusual it may appear. I have designedly had recourse to the fingering in question, not because I wished to recommend its habitual usage, but in order to invest this kind of exercise with an amount of difficulties which must absolutely be overcome, by **COMPELLING** the LIPS to move without having recourse to the valves.

The easiest interval to perform in this manner, is that of minor second. The interval of major second is somewhat more difficult, as a certain movement of the lips is necessary in order to obtain it.

The interval of third is the most difficult of all; for it is often met with in situations wherein it becomes impossible to have recourse to the valves, to assist in carrying the sound from the lower note to the higher note.

I, therefore, recommend the diligent practice of this kind of exercise; it becomes the foundation of an easy and brilliant execution. A great suppleness of the lips is thereby obtained, especially when the execution of the shake is arrived at.

I only give these exercises as **STUDIES**; and I in no way advise pupils to adopt them in general practice, as is often the case with certain players who wish to apply to the cornet a system which has no solid foundation:— the cornet being one of the most complete and perfect of instruments, repudiating rather than requiring all factitious practices, the effect of which will always appear detestable to people of taste.

CHROMATIC SCALES.

1. 
2. 

2.

This system contains measures 1 through 4 of a musical piece. It features six staves of music. The first staff begins with a treble clef and a common time signature (C). The music is written in a key with one sharp (F#) and consists of eighth and sixteenth notes, mostly beamed in pairs. The melody moves across the staves in a descending and then ascending fashion. The system concludes with a double bar line and a repeat sign.

3.

This system contains measures 5 through 8. It continues with six staves. The musical notation remains consistent with the previous system, featuring eighth and sixteenth notes. The key signature changes to two flats (Bb and Eb) at the beginning of measure 5. The system ends with a double bar line.

4.

This system contains measures 9 through 12. It consists of six staves. The music continues with the same rhythmic patterns of eighth and sixteenth notes. The key signature remains two flats. The system concludes with a double bar line.

CHROMATIC TRIPLETS

23

5.  Exercise 5 consists of six staves of music. The first staff is in treble clef with a key signature of one flat (B-flat). It contains a series of chromatic triplets. The subsequent five staves are in bass clef, continuing the chromatic triplet pattern. The exercise concludes with a double bar line and a repeat sign.

6.  Exercise 6 consists of three staves of music. The first staff is in treble clef with a key signature of one flat (B-flat). It contains a series of chromatic triplets. The subsequent two staves are in bass clef, continuing the chromatic triplet pattern. The exercise concludes with a double bar line and a repeat sign.

7.  Exercise 7 consists of three staves of music. The first staff is in treble clef with a key signature of one flat (B-flat). It contains a series of chromatic triplets. The subsequent two staves are in bass clef, continuing the chromatic triplet pattern. The exercise concludes with a double bar line and a repeat sign.

8.  Exercise 8 consists of four staves of music. The first staff is in treble clef with a key signature of one flat (B-flat). It contains a series of chromatic triplets. The subsequent three staves are in bass clef, continuing the chromatic triplet pattern. The exercise concludes with a double bar line and a repeat sign.

STUDIES ON GRACE NOTES.

ON THE GRUPPETTO.

The first studies of the following division are especially destined to prepare the pupil for the execution of the Gruppetto, which, it is needless to observe, consists in surrounding as it were, a note with appoggiatures: these studies ought to be slowly practised, in order to accustom the lips and fingers to act in perfect unison. It is, therefore, necessary to give as much value to the appoggiature, above or below, as to the note which serves as their pivot.

There are two kinds of gruppetto, consisting of four notes; the first is expressed in the following manner: —

The sign is here turned UPWARDS, which indicates that the first appoggiatura should be above.

The lower appoggiatura should always be at the distance of half a tone from the note which it accompanies.

It is marked by an accidental, placed beneath the sign.

As regards the higher appoggiatura, it may be either major or minor, according to the tonality of the piece which is being executed.

It will be seen that the sign is now turned downwards, which denotes that the first appoggiatura must be beneath.

This, at any rate, is the manner in which such passages ought to be written; unfortunately, however, writers now-a-days neglect these details, and leave them entirely to the taste of the performer.

ON THE GRUPPETTO CONSISTING OF THREE NOTES.

Of the class of gruppetto there are two sorts, — the first ascending, the second descending. In either case, they may consist of a minor or diminished third, but never a major third.

It will be seen that this embellishment must not be taken from the note it accompanies, but from the bar which precedes it. It should be very lightly executed; care being taken to utter the first appoggiatura clearly.

OF THE DOUBLE APPOGGIATURA, OR GRACE NOTE.

There are two kinds of double appoggiatura. The first consists of two grace notes which may be taken at the of a third from the notes which they accompany, whether ascending or descending.

The double appoggiatura should not take its value from the note which it accompanies, it should, on the contrary, precede it, as follows:

Example, descending:

The second sort of double appoggiatura is composed of an upper and lower appoggiatura.

Should be executed thus:

These appoggiatura should take their value from the bar preceding the note which they accompany.

OF THE SIMPLE APPOGGIATURA, OR GRACE NOTE.

The Simple Appoggiatura is a grace note, in no way constituting a portion of a bar, but which, nevertheless, is half the value of the note before which it is placed.

Effect:

The APPOGGIATURA may be placed above or below any note. When it is placed above, it may be at the distance of a tone or half tone: when it is placed below, it ought invariably to be at the distance of a half tone.

In the music of the old masters are to be found numerous examples of appoggiatura, (grace note,) intended to take half the value of the note which they precede; but, at the present day, in order to obtain a uniform execution, music is written precisely as it is intended to be executed. This is undeniably a far better plan.

OF THE SHORT APPOGGIATURA, OR GRACE NOTE.

The grace note deducts its value from the note which it accompanies; it is generally employed in somewhat animated movements. Stress should be laid upon it, so as to impart to it a little more force than the note which precedes it. When it is above, it may be situated a tone or half a tone from the note it accompanies; when it is below it is invariably placed at the distance of a half tone.

OF THE PORTAMENTO.

The PORTAMENTO is a little note which is, in fact, merely the repetition of a note which the performer desires to carry to another by slurring. This kind of embellishment must not be used too freely, as it would be a proof of bad taste. When judiciously employed, it is highly effective; but, for my own part, I decidedly prefer that the tone should be slurred without having recourse to the grace notes.

OF THE SHAKE.

On instruments with valves, the shake is the most difficult of all embellishments. The only shake which, on this instrument, is really endurable, is that in half tones. Whole-tones shakes may, however, be produced; but care must be taken to press the valves down, so that each note may be perfectly distinct.

OF THE MORDANT.

The MORDANT is nothing more than a precipitated shake. It requires neither preparation nor resolution.

Its effect is as follows:

The MORDANT consisting of several beats is almost impracticable on the cornet. The performer must, therefore, restrict himself to the mordant with one beat, which is much more easy of execution, and is, moreover, very graceful.

effect:

The MORDANT takes its value (TIME) from the note to which it belongs.

PREPARATORY STUDIES ON THE GRUPETTO.

1.

Exercise 1 consists of 12 measures across six staves. The first staff is in C major, 4/4 time, starting with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: C4, D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4, C4. The second staff is in D major, 4/4 time, with a treble clef and a key signature of two sharps (F#, C#). The melody is a sequence of eighth notes: D4, E4, F#4, G#4, A4, B4, C5, D5, C5, B4, A4, G#4, F#4, E4, D4. The third staff is in E major, 4/4 time, with a treble clef and a key signature of three sharps (F#, C#, G#). The melody is a sequence of eighth notes: E4, F#4, G#4, A4, B4, C5, D5, E5, D5, C5, B4, A4, G#4, F#4, E4. The fourth staff is in F# major, 4/4 time, with a treble clef and a key signature of four sharps (F#, C#, G#, D#). The melody is a sequence of eighth notes: F#4, G#4, A4, B4, C5, D5, E5, F#5, E5, D5, C5, B4, A4, G#4, F#4. The fifth staff is in G major, 4/4 time, with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: G4, A4, B4, C5, D5, E5, F#5, G5, F#5, E5, D5, C5, B4, A4, G4. The sixth staff is in A major, 4/4 time, with a treble clef and a key signature of three sharps (F#, C#, G#). The melody is a sequence of eighth notes: A4, B4, C5, D5, E5, F#5, G5, A5, G5, F#5, E5, D5, C5, B4, A4. The seventh staff is in B major, 4/4 time, with a treble clef and a key signature of four sharps (F#, C#, G#, D#). The melody is a sequence of eighth notes: B4, C5, D5, E5, F#5, G5, A5, B5, A5, G5, F#5, E5, D5, C5, B4. The eighth staff is in C major, 4/4 time, with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: C5, D5, E5, F#5, G5, A5, B5, C6, B5, A5, G5, F#5, E5, D5, C5. The ninth staff is in D major, 4/4 time, with a treble clef and a key signature of two sharps (F#, C#). The melody is a sequence of eighth notes: D5, E5, F#5, G5, A5, B5, C6, D6, C6, B5, A5, G5, F#5, E5, D5. The tenth staff is in E major, 4/4 time, with a treble clef and a key signature of three sharps (F#, C#, G#). The melody is a sequence of eighth notes: E5, F#5, G5, A5, B5, C6, D6, E6, D6, C6, B5, A5, G5, F#5, E5. The eleventh staff is in F# major, 4/4 time, with a treble clef and a key signature of four sharps (F#, C#, G#, D#). The melody is a sequence of eighth notes: F#5, G5, A5, B5, C6, D6, E6, F#6, E6, D6, C6, B5, A5, G5, F#5. The twelfth staff is in G major, 4/4 time, with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: G5, A5, B5, C6, D6, E6, F#6, G6, F#6, E6, D6, C6, B5, A5, G5. The piece ends with a double bar line.

2.

Exercise 2 consists of 12 measures across six staves. The first staff is in C major, 4/4 time, starting with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: C4, D4, E4, F#4, G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4, C4. The second staff is in D major, 4/4 time, with a treble clef and a key signature of two sharps (F#, C#). The melody is a sequence of eighth notes: D4, E4, F#4, G#4, A4, B4, C5, D5, C5, B4, A4, G#4, F#4, E4, D4. The third staff is in E major, 4/4 time, with a treble clef and a key signature of three sharps (F#, C#, G#). The melody is a sequence of eighth notes: E4, F#4, G#4, A4, B4, C5, D5, E5, D5, C5, B4, A4, G#4, F#4, E4. The fourth staff is in F# major, 4/4 time, with a treble clef and a key signature of four sharps (F#, C#, G#, D#). The melody is a sequence of eighth notes: F#4, G#4, A4, B4, C5, D5, E5, F#5, E5, D5, C5, B4, A4, G#4, F#4. The fifth staff is in G major, 4/4 time, with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: G4, A4, B4, C5, D5, E5, F#5, G5, F#5, E5, D5, C5, B4, A4, G4. The sixth staff is in A major, 4/4 time, with a treble clef and a key signature of three sharps (F#, C#, G#). The melody is a sequence of eighth notes: A4, B4, C5, D5, E5, F#5, G5, A5, G5, F#5, E5, D5, C5, B4, A4. The seventh staff is in B major, 4/4 time, with a treble clef and a key signature of four sharps (F#, C#, G#, D#). The melody is a sequence of eighth notes: B4, C5, D5, E5, F#5, G5, A5, B5, A5, G5, F#5, E5, D5, C5, B4. The eighth staff is in C major, 4/4 time, with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: C5, D5, E5, F#5, G5, A5, B5, C6, B5, A5, G5, F#5, E5, D5, C5. The ninth staff is in D major, 4/4 time, with a treble clef and a key signature of two sharps (F#, C#). The melody is a sequence of eighth notes: D5, E5, F#5, G5, A5, B5, C6, D6, C6, B5, A5, G5, F#5, E5, D5. The tenth staff is in E major, 4/4 time, with a treble clef and a key signature of three sharps (F#, C#, G#). The melody is a sequence of eighth notes: E5, F#5, G5, A5, B5, C6, D6, E6, D6, C6, B5, A5, G5, F#5, E5. The eleventh staff is in F# major, 4/4 time, with a treble clef and a key signature of four sharps (F#, C#, G#, D#). The melody is a sequence of eighth notes: F#5, G5, A5, B5, C6, D6, E6, F#6, E6, D6, C6, B5, A5, G5, F#5. The twelfth staff is in G major, 4/4 time, with a treble clef and a key signature of one sharp (F#). The melody is a sequence of eighth notes: G5, A5, B5, C6, D6, E6, F#6, G6, F#6, E6, D6, C6, B5, A5, G5. The piece ends with a double bar line.

28. *Allegro*

This kind of study should be assiduously practised,—care being taken not to alter the position of the mouthpiece, in order to pass from a low note to a higher one, or from a higher one to a lower one. By observing this rule, the performer will acquire certainty in taking the note, and great facility of execution.

OF TRIPLETS.

The use of triplets is always highly effective. In order to execute a triplet well, each note must be uttered with perfect equality. The student should proceed slowly at first, and not attempt to play quickly until the fingers have acquired regularity of motion.

STUDIES IN SEMI-QUAVERS.

In order to arrive at perfection of execution, these studies should be played with scrupulous attention to time and rhythm, due regard being had to the articulations therein indicated. The performer should begin slowly, and not increase his speed until he has become familiar with the exercise. Too great a rapidity of execution does not always impart to the performance the brilliancy expected. Precision and regularity are the real foundation of an excellent execution.

ON THE CHORD OF THE DOMINANT SEVENTH.

The chord of the dominant seventh being the same in both major and minor keys, it becomes here the complement of the preceding studies. When practising it, the regularity which I have already enjoined, and which I cannot too strenuously recommend, should be carefully observed.

ON THE CHORD OF THE DIMINISHED SEVENTH.

This chord plays a conspicuous part in modern musical composition. Owing to its elastic nature, it is of incalculable service; for, consisting as it does solely of minor thirds, it may be interpreted in various different ways; and there are innumerable cases in which the musician may have recourse to it.

ON THE PAUSE.

I add to these studies a series of pauses in the form of preludes, in order to accustom the pupil to terminate a solo effectively. It would be advisable to transpose these pauses into all the different keys. Care must be taken to breathe whenever a rest occurs, so as to reach the end of the phrase with full power, and in perfect tune; otherwise the effect will be completely destroyed.

CHORD OF THE DOMINANT SEVENTH
AND DIMINISHED SEVENTH.

ON THE PAUSE.

STUDIES ON TONGUEING.

TONGUEING IN TRIPLET STACCATO.

The **STACCATO** consists in detaching, with regularity, a succession of notes without allowing the tongueing to be either too short or too long. In order to arrive at this degree of perfection, studies, which serve as basis, should be very slowly practised.

The student should first strive to pronounce with perfect equality the syllables:—

In order to impart more equality to the tongueing, it is necessary, when beginning, to prolong each syllable a little, so as to impart more equality to the tongueing. When great precision has been obtained in the utterance of the tongueing, it should then be more briefly emitted, in order to obtain the true **STACCATO**.

In pronouncing the syllables **TU, TU**, the tongue places itself against the teeth of the upper jaw, and in retiring pronounces the first two sounds. The tongue should then re-ascend to the roof of the mouth and obstruct the throat, — dilating itself by the effect of the pronunciation of the syllable **KU**, which by allowing a column of air to penetrate into the mouthpiece, determines the third sound.

In order to invest this **TO-AND-FRO** motion with perfect regularity, it is necessary to practice slowly, so that the tongue, like to a valve, may allow the same quantity of air to escape at each syllable.

If this system of articulation be persevered in, no passage whatever will be found difficult; the production of tone on the cornet will be as easy as that on the flute; but to reach this end, the **PRONUNCIATION** must be perfectly pure. Experience has proved to me that to obtain a really irreproachable execution, it is necessary to pronounce the syllables *tu, tu, ku, tu, tu, ku, tu*, as has just been shown, and **NOT** the *du, du, gu, du, du, gu, du*; these latter, it is true, go faster, but do not sufficiently detail the sound.

The tongueing should not be too precipitated; for the auditor will then be no longer able to distinguish it.

TONGUEING IN DOUBLE STACCATO.

This kind of **STACCATO** is of great assistance in the execution of scales, or arpeggios, in the binary rhythm. In order to execute this exercise with precision, it must be practiced slowly, — regard being had to the principles set forth for the tongueing in triple **STACCATO**.

The student should, first of all, pronounce the syllables:

As is seen, the tongue performs a **to-and-fro** movement, which it is very difficult to obtain with perfect equality; but once this desideratum has been arrived at, the most difficult passages may be executed with all desirable speed, energy and **BRIO**.

THE SLUR IN DOUBLE STACCATO.

In order to combine slurs with the double **STACCATO**, there is a peculiar kind of pronunciation to employ. It would be monotonous to be always performing **STACCATOS** without having occasional reference to the slur.

This articulation is obtained by pronouncing the following syllables:

The syllable **TA** serves to strike the first note, and the syllable **A**, which comes afterwards, enables the performer, by prolonging the sound, to slur easily on to the second note. This tongueing is assuredly one of the most indispensable, inasmuch as it is to be met with in all kinds of music.

Andantino.

4.

The first system of the musical score, marked 'Andantino', consists of four staves. The first staff is in treble clef with a key signature of one flat and a 6/8 time signature. The subsequent three staves are in bass clef. The music features a complex, flowing melody with many sixteenth and thirty-second notes, creating a rapid, intricate texture. A 'rall.' marking appears at the end of the fourth staff.

Andante moderato.

The second system of the musical score, marked 'Andante moderato', consists of four staves. The first staff is in treble clef with a key signature of one flat. The subsequent three staves are in bass clef. The tempo is slower than the first system, with a more spacious feel. The melody continues with similar rhythmic patterns but at a reduced speed. A 'rall.' marking appears at the end of the fourth staff.

VOIS-TU LA NEIGE QUI BRILLE.

Andante quasi allegretto.

5.

The third system of the musical score, marked 'Andante quasi allegretto', consists of two staves. The first staff is in treble clef with a key signature of one flat. The second staff is in bass clef. The tempo is slightly faster than the previous sections. The music features a mix of eighth and sixteenth notes. A 'rall.' marking appears at the end of the second staff, followed by 'a tempo.'.

Allegro.

The fourth system of the musical score, marked 'Allegro', consists of four staves. The first staff is in treble clef with a key signature of one flat. The subsequent three staves are in bass clef. The tempo is significantly faster, with a more energetic feel. The music features a dense texture of sixteenth and thirty-second notes. A 'rall.' marking appears at the end of the fourth staff.

1st Viol.

The fifth system of the musical score, marked 'Allegro', consists of four staves. The first staff is in treble clef with a key signature of one flat. The subsequent three staves are in bass clef. The tempo remains fast and energetic. The music features a dense texture of sixteenth and thirty-second notes. A 'rall.' marking appears at the end of the fourth staff.

2nd. Variation.

The 2nd Variation consists of six staves of music. The first staff is in treble clef, and the subsequent five staves are in bass clef. The music is written in a key with one sharp (F#) and a 2/4 time signature. It features a variety of note values, including eighth and sixteenth notes, and rests. Trills are marked with 'tr' above the notes. The piece concludes with a double bar line.

THEME ACTEON.

The Theme Acteon consists of six staves of music. The first staff is in treble clef, and the subsequent five staves are in bass clef. The music is written in a key with one sharp (F#) and a 2/4 time signature. It features a variety of note values, including eighth and sixteenth notes, and rests. Trills are marked with 'tr' above the notes. The piece concludes with a double bar line.

- No. 1. "LUCKY HIT"—Cornet Polka..... J. S. Cox
A Beautiful and Stylish Tripple-tonguing Polka.
2. THE SWEETEST FLOWER—Cornet Waltz..... J. S. Cox
One of the newest novelties of the day, with beautiful Andante Introduction.
3. MY VA—Cornet Polka..... Hermann
A really one of the best tripple-tonguing Polkas ever published.
4. GRAND SELECTION—LA PERIOHOLE..... J. S. Cox
Arranged in a Pleasing and Popular Style, and will become immensely Popular.
5. MAZOURKA CAPRICE—Cornet Solo..... Hartman
One of the Latest Ideas for Cornet, with elegant Triplet Variation. This is something new. It will become a great favorite.
6. ANDANTE—ETUDE DE CONCERT..... J. S. Cox
This piece is gotten up expressly for advanced Players, as it contains many cadences, and most all the Movements and Styles of the Cornet. Elegant for Exports.
7. AUTOGRAPH—Cornet Polka..... Meyer
This is a beautiful Solo. Far different from any we have published, and will meet with a hearty welcome.
8. "RAPHAEL"..... J. S. Cox
One of the greatest things ever published for Cornet. Now being performed by Levy and other distinguished Cornetists. Every Cornet Soloist should get a copy.
9. WASHINGTON GUARD—Cornet Polka..... Harry Miller
Solo Cornetist with Haverley's Minstrels. A very stylish and Sparkling Tripple-tonguing Polka. Splendid for Concert.
10. JOSEPHINE—Cornet Polka..... J. S. Cox
Decidedly the best Tripple-tonguing Polka ever published. As good if not superior to his "Lucky Hit" Polka, which was the greatest hit ever made with a Concert Polka.
11. "CHIMES OF NORMANDY"..... J. S. Cox
Considered by Musicians to be the finest Overture ever written. It is performed with great success at the Arch Street Opera House.
12. OVERTURE—"FATINITA" Von Suppe..... J. S. Cox
A very Stylish and Effective Piece, and will soon become a great favorite.
13. GRAND SELECTION, "H. M. S. PINAFORE," Sullivan
Very Stylish, containing the Gems of the Opera.
14. "IRISH OVERTURE"..... F. B. Williams
Containing the Principal old Irish Melodies.
15. OVERTURE—"HIPPODROME"..... T. B. Boyer
Very popular for Military Bands. Not difficult.
16. HOME SWEET HOME..... By T. H. Rollinson
Very handsomely arranged. With Variations.
17. CARNIVAL DE VENICE..... J. Dodsworth
Very stylish. With Variations.
18. BLUE BELLS OF SCOTLAND..... J. Dodsworth
With Beautiful Variations.
19. LAST ROSE OF SUMMER..... R. Smith
With Showy Variations.
20. LE TROMPETTE DES CENT GARDE (Cornet Polka)..... Benquet
A very Beautiful tripple-tonguing Polka. Not difficult.
21. SAFE IN THE ARMS OF JESUS..... J. S. Cox
A very beautiful Fantasia for Cornet. Played with tremendous success by Wm. Northcutt, Solo Cornetist Permanent Exhibit, Philadelphia.
22. SOUVENIR DE VALENCE..... Bieger
Beautiful Air and Variations. Becoming quite a Favorite.
23. LA PARISIENNE (Cornet) POLKA..... T. Ligner
Very Easy and Pleasing tripple-tonguing Polka, for Concert.
24. Medley Overture, "BARKS IN THE WOOD"..... Zimmerman
Containing the most Popular Songs of the day, viz.—Introduction, "Grouse with Gosh," "Game What They Are At," "Up in the Moon," "Two Merry Kids," "He's More Like His Dad," "Johnny Morgan," Grand Finale—Tempo di Galop.
25. "SOLITUDE"—AN ORIGINAL CAPRICE. Mercadante
Splendid for Concert.
26. CORNET TRIUMPHANT..... Chappelle
A Beautiful Air, with Variations.
27. "LA PERLE DU MERE" (Cornet) POLKA..... G. M. Spence
A very Stylish Tripple-tonguing Polka.
28. LA VALLIENNE (Cornet) POLKA..... Ascher—Arr. by Willis
A Beautiful Solo, with fine Tripple-tonguing Variation.
29. "FLEE AS A BIRD"..... J. S. Cox
A very Stylish "Fantasia" for Cornet, and will soon become immensely Popular.
30. PERONNELLE (Cornet) POLKA..... E. Marie
A very Beautiful Tripple-tonguing Polka.
31. "MY HEART AND LUTE"..... Woodman
Old Scotch Air, with Variations.

The above Pieces are arranged in a stylish and effective manner, and will soon become immensely popular, as they are now performed by some of the most celebrated Cornetists, viz. J. Levy, Arbuckle, Bent, &c.

who have learned merely from a Scale, can, for a little more, PURCHASE A COMPLETE METHOD OF INSTRUCTION and acquire a thorough knowledge of the instrument, together with nearly 100 RECREATING becoming a perfect Musician.

UNION CITY, INDIANA, September 6, 1879.
SIR:—The "SELF-INSTRUCTORS" are received. I can gratefully acknowledge the publication of such a series of Instruction for the entire instrumentation of a Brass and Reed Band, the celebrated Cornet Schools of both Urban and Camillus, but I think your work and general arrangement yours deserves especial notice for your success.
Yours respectfully,
M. A. HARLAN
Leader and Director City Band, Union City, Indiana.
